

Triple-Bead 90

Ceramic Wear-Compound
High Temp

*Repair holes!
Restore worn surfaces!
Extend the life of new parts!*

**Triple-Bead 90 HT
Wear-Compound
28.4 lb Kit**
(Part 12590)

Resin 1 Pair Latex Gloves
Hardener 1 Trowel

The various sizes of beads help give Triple-Bead 90 HT its high abrasion resistance and durability factor.

- Wear-Con's Triple-Bead 90 HT Wear-Compound is simple to mix and use
- Self-contained kits include everything you need **including trowel!**
- Conforms to irregular & overhead surfaces due to its non-sag paste consistency
- Resistant to all types of sliding abrasion
- Provides excellent resistance to fine particle abrasion (up to 450° F continuous)
- Ceramic beads small enough for pump housings yet large enough for chutes

Simple to mix. Simple to use. Simply the best!

Triple-Bead 90 HT applications include: Chutes, Hoppers, Pipes, Pipe Elbows, Pumps, Wear Plates, Fans, Blowers, Dust Collector Exhauster Linings, Separator Linings, Pump Housings, Reject Chute Linings, Coal Pipes, Cyclone Linings, Hammer Mill Transitions, Grain Spouts, Fan Linings, Transfer Chutes, Pulverizers, Coal Handling Chutes, Downcomer Pipes, Stock Feeder Transitions, Cooling Towers, Pulverizer Housings, Coal Conduit Pipes, Ash Pump Housings, Ash Pipe and Fittings, Sand Slurry Pumps, Screw Conveyors, Dump Hoppers, Slurry Pipes, and many more!
